

Avita Financial Assistance Policy

Avita is committed to providing access to health care for everyone regardless of their ability to pay. We commit to do so in a professional and compassionate manner that respects our patients' dignity and privacy.

The Avita Financial Assistance Program is designed to provide fair and consistent access for all patients through use of a formalized application process. Standardized eligibility criteria are based on total gross family income, the number of dependents in the family unit, and the family's liquid assets.

The income guidelines are a sliding scale with a maximum income amount of 400% of Federal Poverty Level guidelines. Full (100%) assistance is given to families with income less than 200% of Federal Poverty Level.

The value of liquid assets that exceeds the family's total gross income for the previous 3 months is included in the calculation of the family's income.

Medical hardship adjustments will be approved for families if Avita medical expenses within a twelve (12) month time frame exceed \$10,000 in patient responsibility and more than 20% of the family's income once the initial hospital assistance has been applied. Percentage of hardship awarded will not exceed 90%.

Presumptive charity will be given to families identified by external data analysis to not have the ability to pay.

CHARGES WILL NOT EXCEED AMOUNTS GENERALLY BILLED (AGB)

- If you receive financial assistance under our Policy, you will not be charged more for emergency or other medically necessary care than the amount we generally bill patients having commercial insurance or Medicare coverage.
- Avita utilizes the "look-back" method to determine the "amounts generally billed" to individuals who have insurance covering Emergency or other Medically Necessary Care.
- The percentage is calculated using all claims allowed by both private pay insurers and Medicare (Traditional) for both inpatient and outpatient services. Total expected payment from allowed claims is divided by total billed charges for such claims to calculate the AGB.

To be eligible, patients/guarantors must:

- Exhaust available private and public resources, including but not limited to health insurance, liability insurance, pharmacy assistance programs, and grant programs. With the exception of Medicare eligible patients and patients over 18 years of age with no dependents under 18 years of age, families must complete the Medicaid application process to be considered for the Avita Financial Assistance Program.
- Be a U.S. citizen or a non-U.S. citizen living in Ohio voluntarily. Non-U.S. citizens who are on vacation in Ohio or any patient who comes to Ohio solely to receive medical care are excluded from assistance.
- Be unable to access other programs that would cover medical expenses.
- Not have declined health insurance through an employer within the last 12 months or a family member who could have covered the patient must not have declined coverage in the previous 12 months.
- Agree to enroll for coverage through the Marketplace during the next open enrollment. If patient fails to enroll and maintain monthly premiums, he/she will not be eligible for additional assistance unless patient submits verification that the lowest monthly premium for which family members are eligible exceeds the family's gross monthly income by more than 15%.
- Authorize the release of any information needed to determine the family's eligibility, not to exclude address verification, a credit check through a national credit bureau, asset check through County Tax Assessor, and verification of all income and benefits received.
- Apply for assistance within 240 days after the first post-discharge statement

Family income:

- Is calculated based on the gross income for the three months prior to the service date multiplied by four or the twelve months prior to the service date, whichever is lower
- Includes, but is not limited to:

- Wages, salaries, earnings
- Unemployment and Workers Compensation benefits
- Social Security and SSI benefits for all family members
- VA benefits
- Pension and retirement income
- Interest, dividends, royalties, trust funds, income from estates
- Child support and alimony
- Food stamps
- Must be verified with documentation or patient attestation if no documentation available (e.g., written statement of support from friends or relatives)
- Income from self-employment will be calculated by reviewing a copy of the applicable federal tax Schedule C Profit or Loss Statement. For service dates within the first three months of the calendar year, the previous year's tax statement can be used. For service dates within the last nine months of the year, an updated, interim Schedule C must be prepared by the family and provided with the application. If a Schedule C was not filed for the previous tax year, an interim Schedule C must be prepared by the family and provided with the application. Excluded deductions include but are not limited to:
 - Home office
 - Furniture
 - Mileage, travel, parking, tolls, meals, entertainment, and gifts
 - Depreciation
 - Education/training
 - Charity deductions made for business purpose
 - Utilities for home based business
 - Internet hosting/services for home based business
 - Moving
 - Safe or safety deposit box

Medical hardship assistance:

- Is awarded to families who within a specific time frame incur medically necessary Avita expenses:
 - In excess of \$10,000
 - Not covered by insurance or other private or government programs, and
 - That exceed 20% the family's gross income for that specific time frame. The time frame for comparison of expenses to income must be at least three (3) months but not more than twelve (12) months.
 - Percentage of hardship awarded will not exceed 90%
- Is calculated on the patient responsibility amount after all available third party insurance have paid or been exhausted, available government and private programs have paid, and charity adjustments based on income and liquid assets have been applied.

Application forms are available free of charge:

- On the Avita Website (www.avitahealth.org)
- At Avita registration desks or Avita physician office front desks
- By contacting Avita's Customer Service Team at 419-468-0512
- On the back of Avita first statements sent to families with a patient responsibility amount

The Vice President of Finance/Chief Financial Officer (CFO), Director of Patient Financial Service (PFS), and Patient Receivables Manager have the authority to approve charity care.

An approved financial assistance application is good for 90 days.
