## Did You Know?

After you smoke your last cigarette, your body begins a series of positive changes that continue for years. Here are just a few examples:

Time after quitting	Health Benefits
Minutes	Heart rate drops
24 hours	Nicotine level in the blood drops to zero
1 to 12 months	Coughing and shortness of breath decrease
1 to 2 years	Risk of heart attack drops sharply
3 to 6 years	Added risk of coronary heart disease drops by half
5 to 10 years	Added risk of cancers of the mouth, throat and voice box drops by half
	Risk of stroke decreases
10-20 years	Risk of coronary heart disease drops to close to that of someone who does not smoke
	Many other cancer risks drop by half and some close to that of someone who does not smoke
